STRIKES KEEP UP IN NEVADA.

RIOH ORE UNCOVERED IN THE BULLFROG PROPERTIES.

How a "Broke" Prospector's Dream of Fortune Came True-Big April Gutput in Crippie Creek-Utah's New Copper Record-Peace Talk in Montana.

GOLDFIELD, Nev., April 29.—Development work on all of the Builfrog properties continues with greater activity than ever. A rich strike was made yesterday on the Builfrog Gold Bar, better known as the Benfry Hazletine, that ran \$1,458. This rich body of ore was encountered in the drift which runs off from the main vertical shaft at the fifty foot

The incline shaft which lies to the northeast of the vertical shaft on the main ledge is in good shipping ore. About 100 feet of drifting has been done from the vertical The whole vein has been opened up by surface work, and the lowest assay that has been made runs better than \$15.

Another strike is reported on the Bulifrog National Bank property. The main shaft is down 104 feet and Superintendent Walter Smith is awaiting the arrival of his 25 horse-power Fairbanks-Morse gasoline hoist before going any deeper, although he is crosscutting at the 100 foot level. Assays made from at the 100 foot level. Assays made from samples taken out of the face of the crossout

gave an average of \$1,600 a ton.

The tunnel on the dividing line between the Bullfrog National Bank's and the Bullfrog Mining Company's properties is in 260 feet. and a strike of ore running \$240 per ton has been made. In digging into the mountain for an engine house, an immense body of high grade ore was encountered.

Work on the Denver, in Bonanza Mountain, is being carried on day and night. Yesterday United States Senator G. S. Nixon, George Wingfield and D. H. Peery bought the Denver Extension, which shows on the surface a strike of ore identical with the Denver. Two shifts of men are at work and will develop the property systematically to ascertain what is the best point to sink the shaft and drive the tunnel. It is reported that Senator Nixon and his associates paid \$100,000 for

eight large dredges are working day and pincht.

Fastern capitalists have bought the Le Grange hydraulic mine, near Weaverville, Trinity county, from the French company which has owned it for years. Four giants have been kept constantly at work, and the water pouring through them under 300 feet pressure has worked out hundreds of tons of auriferous gravel. The output has been between \$30,000 and \$40,000 a month. The mine for several years has been regarded as a model, and owners of placer and hydraulic mines in various parts of the world have made trips to this remote place in Trinity county to study the methods employed in extracting gold on the largest hydraulic scale known to the world. known to the world.

ALASKA

SEATTLE, May 1.—Reports from the Tanana are of the most encouraging character. Fairbanks appears to be the center of attraction. While everything centers at Fairbanks, as it fermerly did at Dawson, business is spreading out and expanding over rich territory, embracing dozens of streams where miners are now commanding from \$8 to \$10 per day. Supplies are not as plentiful as it was anticipated they would be, hence prices rule high. Flour was bringing \$12 per hundred, bacon 50 cents a pound, butter \$1.50 a can oil \$20 a case, while ham, potatoes, sugar and salt are not quoted, because they are out of the market entirely. Among the things that are reported plentiful are gold dust, games and whisky.

Reports from Nome say that the ice which has fettered the straits went out on April 10, leaving nothing to obstruct navigation, while the water pipes in the city and the streams that furnished the miners are running free. Nome and Snake rivers are open their entire length and mining operations are in full swing. ALASKA

work on the Alaska Central Railway between Seward and Fairbanks is being pushed with a great deal of energy by the Canadians who have it in charge. They have laid out to complete 125 miles this season, and will accomplish it easily. Men are being added to the force daily and good wages are paid.

WASHINGTON. WASHINGTON.

WASHINGTON.

SEATTLE, May 1.—The early melting of the snow is enabling miners to get into the districts from a month to six weeks sooner than usual. This is the experience of miners on the eastern as well as on the western slopes of the Cascade Range, and also in the Olympics. Mines that have been lying dormant for several years past are putting on working forces, and properties that had reached a preductive stage, with ore on the dumps and blocked out ready for shipment to the smelters, are now arranging for improved emelters, are now arranging for improved transportation facilities

on the western slope of the Cascades there are from twenty-five to thirty mines of this character, producing sliver-copper ore going from \$25 to \$45 per ton. The smelters at Tacoma and Everett have recently been improved to enable them to handle several thousand tons a month more than formerly. The new Pigott smelter, on the tide flats south of Seattle, just completed, is also in position to reduce from 200 to 300 tons per day. BRITISH COLUMBIA.

BRITISH COLUMBIA.

SRATILE, May 1.—The announcement was made on April 26 of the amalgamation of the LeRol, War Eagle, Center Star and Snow-shoe mines and the Trail smelter with a capitalization of \$10,500,000 and a working capital of \$2,000,000. This consolidation has been in contemplation for some time and it makes the largest and most solid mining company in the Province. The mines have been producing largely for a number of years past, and as they can be worked to better advantage under one mangement the consolidation is regarded as exceedingly wise.

COLORADO.

COLORADO.

COLORADO.

COLORADO.

COLORADO SPEINOS, May 4.—The Cripple Crock April preduction was \$1,855,300, gross

what is the best point to sink the shaft and drives the tunnel. It is reported that Senator the property.

Bonanza Mountain lies about one mile metrhweat of Rhvolite, and the Denver property is situated on the southern slope. The principal vein is known as the Denver, and is developed by an open cut fitty feet in depth sand twenty feet wide, exposing a true fissure 'vein about ten feet wide. The lode or vein filling is a porphyry quartz carrying free gold, running \$200. On the hanging wall side there are fourteen inches of ore that will average \$500.

The interest in the Shoshone-Montgomery Mountain Mining Company property has been augmented to-day by the fact that a meeting was held at Salt Lake City, which was attended by E. A. Montgomery, Malcolin Macdonald and J. E. Connor of Colorado Springs. It is reported on good authority that Macdonald and Company have derect Montgomery \$1,000,000 cash for its three quarters interest.

Slixty days ago Montgomery was in Goldfield practically broke. All he had in the world was the claims which now go to make up this property, and on which he tried to borrow \$3,000. He was unable to get the loan. He went back to Bullfrog and started to brown \$3,000. He was unable to get the loan. He went back to Bullfrog and started to brown \$3,000. He was unable to get the loan and the superintendent. We have been accompany to the superintendent of the tunnel with teats in his eyes and said to his superintendent. We have been accompany to the superintendent when the superintendent was a trend of the superintendent. We have been also and the superintendent was the claims which now go to make up this property, and on which he tried to be brown \$3,000. He was unable to get the loan. He went back to Bullfrog and started to be a superintendent when the superintendent was the claims which now go to make up this property, and on which he tried to be brown \$3,000. He was unable to get the loan. He went back to Bullfrog and started to be a superintendent when the superintendent was to be a superi

Bryolite on to Goldfield. Two banks have been established, and both are doing a profitable business.

Hand, May 2.—Edwin Wallace, a Denver man, has bought the Joanna mine near therry Creek in White Pine county for \$50,000.

In the Prairis district J. B. Sutton and associates have found good ore in the Zeno North Mining Company's three claims which they recently purchased. The ore assays \$10.74 gold, \$16.70 silver and 56.22 ounces of copper to the ton.

San Francisco, May 2.—A dredger, employed in level construction below Yubangold bearing mud and sand, thus demonstrating that the Feather River has brought to be barren of the urecious metal. The dredging far below where it was thought to be barren of the urecious metal. The dredger is what is called a clamshell machine, built expressly for level construction built it bepught up coarse cold and nuggets. This shows that the Feather River can be worked twenty miles helow the present scene of activity around Oroville, where twenty-eight large dredges are working day and pight.

Fastern capitalists have bought the Legrange hydraulic mine, near Weaverville, Trinity county, from the French company which has owned it for years. Four giants have been kept constantly at work, and the water pouring through them under 300 feet pressure has worked out hundreds of tons of the Bald Mountain district.

Drapwood, S. D., May 2.—A new name of several searce of which is 400 feet.

Drapwood, S. D., May 2.—A new name of several searce of which is 400 feet.

over a mile of underground workings and several shafts, the deepest of which is 400 feet.

Dradwood, S. D., May 2.—A new name is being applied to the Bald Mountain district of the Black Hills on account of its great productiveness within comparatively small area. The Black Hills as a whole has long been known as the richest 100 miles square on eafth, and now to the small district above mentioned is applied the term, "richest ten square miles." Within this limited area there are some of the most productive mines in the Hills, and the fact that it is a comparatively new district makes it the more interesting. Aside from the Homestake output, nearly all the gold produced in the Hills comes from the territory which includes Ruby Basin, Nevada and Whitefail gulches and the district lying about Portland. It is approximately two miles in width by five miles long.

The Golden Reward Company owns the southern portion of this tract and is the oldest steadily producing company within the district. The Horseshoe Company is fast coming to the front as a steady producer. The Imperial Company has in the past year made giant stricts to the front as a steady producer. The Imperial Company has in the past year made giant strides toward a well earned success. A great amount of valuable mining ground has been added to its holdings.

Lake superior incom Mines.

Dulutra, Minu., May 4.—Shippers are hustling ore down the Lake as fast as possible,

LAKE SUPERIOR IRON MINES.

DULUTH, Minn., May 4.—Shippers are hustling ore down the Lakes as fast as possible, in view of a probable shortage at furnaces, all of which are melting iron at a greater rate than was expected. The three Mesaha range ports at the head of the Lakes shipped in April a total of 775,000 gross tons, which was less than half they expected to move, the ice conditions having kept them back. But ore is now coming down to the Lakes from this range at the rate of 100,000 tons a day, and is being cared for by the shipping men without trouble.

Statistics of iron ore receiving docks on Lake Erie show that the spring opened with a lesser quantity of ore on hand than had been known for five years. Only about 2,000,000 tons were on hand at the opening of the season. A year ago there were 4,500,000 tons.

Mirres that have been idle for years are

of the season. A year ago there were 4,500,000 tons.

Mires that have been idle for years are being reopened and it is evident that steam shovel properties are to have the preference. This is but natural since men are no; plenty. Steam shovels do not strike or demand higher pay, and but few unskilled men are around a steam shovel mine. The Oliver, which is a property belonging to the State achool fund, is to be reopened this year and about 400,000 tons will be mined. The State will get about \$100,000 from the operation of this mine this year.

Frantz mine of the Mesaba range is to mine about 125,000 tons this year and has already a nice stock pile on the surface. It

value of 57,500 tons, an increase over March of \$30,000. The increase was due to the smelters, which treated a larger ton Chlorination mills treated value per on Chlorination mills treated 1,00. The cyanide mills in ade a new record, 14,500 tons, of which the Homestake treated 5,000 tons of \$2,50 average value or the swarp was considered in the Henry Adney of Irok ore which has appearance of has been encountered in the Henry Adney olaim on Beacon Hill. Much native gold shows in a new chute in the Zenobia claim on Bull Hill. Values range from \$30 to \$50 per ton.

The Mary McKinney property is in a large body of rich ore which has appearance of has been encountered in the Henry Adney olaim on Beacon Hill. Much native gold shows in a new chute in the Zenobia claim on Bull Hill. Values range from \$30 to \$50 per ton.

The Newton Annex mill of 250 tons daily capacity has been started in the Idaho Springs diagric. The remaining at present. The mill was originally patterned after the Homestake in South Dakota. The ore in the lower workings was found to contain too much mineral, necessitating concentration. For some time past a strong force has been installing a concentration gestion.

The old Aspen mine, Silverton district, is being cleared for reopening. Extensive deposite of low grade ore await breaking. The Constock lode, Idaho Springs district, may soon become a good mine. The claims cover 2,200 feet of the Gem, Dove's Nest and Crown Point veins at a central point between them. A 400 foot shaft at the east end has been productive for years. Recent reductions in treatment charges have made great ore reserves marketable.

Salt Lake, May 1.—From reliable New York and Denver sources it is learned that York and Denver sources it is learned that York and Denver sources it is learned that York and Denver sources it is learned that

deposits of low grade ore await preaking. Years ago the mine was a great product. The Guggenheim Exploration Company of New York is the owner.

The Prudential tunnel will shortly cut the Magenta-Turner lode. It now penetrates Hepublican Mountain 700 feet. A power plant is to be built near the inouth of the tunnel.

The Constock lode, I daho Springs district, may soon become a good mile.

ROW IN THE STOGY TRUST.

Pittsburg Stockholders Say the Concern Makes Money and Want a Dividend.

PITTSBURG, May 7.- The Pittsburg stockholders of the American Stogy Company, which is said to be controlled by its New York stockholders, have demanded that a statement of the company's finances be made at once, or they will resort to law. A meeting of most of the Pittsburg stockholders was held yesterday afternoon, and H. V. Curil, S. Vandersall and M. R. Trauerman, an attorney, were appointed to see President C. M. Logue and demand a state-

It is asserted by the angry stockholders that the concern, which is capitalized under the laws of New Jersey at \$11,976,000 and which practically controls the stogy trade of the country, has been making money. but that no dividends have been paid. Attorney Trauerman said regarding the matter:

"The American Stogy Company was organized in 1903 by George B. Hanford of New York and C. M. Logue of Pittsburg. It is capitalized at almost \$12,000,000, of which about \$4,500,000 is held by Pittsburg people, the remainder in New York. The report of the directors states that the company is making money, but it has never formation as to the standing of the com-

pany has been refused.

"At the annual meeting of the stock-holders in Jersey City, April 3, Pittsburg stockholders had a representative present to go on the directorate who made a demand for a financial statement to learn why no dividend has ever been presented. This report was ignored in the vote for directors and the directoratewas made up of the New York people and two men who. though Pittsburgers, have been working with the New York people in the company. These two are President Logue and E. A.

"The stockholders in Pittsburg then con-sulted me, and I made a trip to New York to find some information about this comto find some information about this company, but I was simply referred to the New York counsel who said no report was required under the charter and none would be made. We naturally do not like this style of doing business, and want to know."

President Logue is not inclined to take the protest of the stockholders seriously. "Some time ago," he said, "in order to operate the company on a more sconomical basis we found it necessary to drop from the payroll some persons who had been getting large salaries for doing practically nothing. large salaries for doing practically nothing.

The dissatisfaction alleged among Pittsburg stockholders is not so general as those rushing into print would have the public believe."

ELECTIONS AND MEETINGS.

THE DELAWARE & HUDSON COMPANT.
NOTICE IS HEREBY GIVEN that a special meeting of the stockholders of The Delaware and Hudson Company, called by order of the Board of Managers, will be held at the office of the Company, No. 21 Cortlandt Street, in the Borough of Manatan and City of New York, on Tuesday, May ninth (9th), 1905, at 11:55 A. M., for the purpose of considering and acting upon the question of increasing the capital stock of the Company in the amount of fifty thousand (50,000) shares of the par value of \$100 each, and also for the purpose of approving the making of a modified lease by the Company of the Railroad, property and franchises of the Chatcaugay and Lake Flaedd Railway Company. Notice is also given that the annual meeting of the Stockholders of The Delaware and Hudson Company will be held at the same place at welve o'clock noon on the same day for the election of managers and for other business.

The polis will open at twelve o'clock noon and remain open for a least one hour.

The transfer books will be closed from the close of business Saturday, April 29th, until the moraing of Wednesday, May 10th.

By order of tae Board of Managers,
DAVID WILLCOX.

April M. to stockholders of record May 8. Transfer
books close at 2 P. M. May 8, and reopen at 10 A. M.
June 1. RICHARD TRIMBLE, Spercharp.

WE INTEND TO CONVINCE THE PUBLIC THAT THERE IS SUCH A THING AS LEGITIMACY IN MINING STOCKS, LEGITIMATE MINES, LEGITIMATE PEOPLE MANAGING THEM, AND LEGITIMATE BROKERS

THE DIFFERENT STOCKS OF WHICH WE HAVE ADVISED THE PURCHASE, PARTICULARLY TONG-PAH MINING, TONOPAH EXTENSION, JIM BUTLER, MIDWAY AND ALL OF THE GOLDFIELD AND BULL. FROG STOCKS, HAVE REALIZED HANDSOME PROFITS FOR OUR CUSTOMERS AND A MAGNIFICENT

THIS MORNING WE ONGRATULATE OUR FELLOW BROKERS AND OURSELVES WHO HAVE BEEN ENDEAVORING, TO INDUCE THE DIRECTORS IN CONTROL OF THE DIFFERENT MINING PROPERTIES IN THE WEST, IN WHICH EASTERN PEOPLE ARE INTERESTED. TO REALIZE THE NECESSITY OF HAVING A TRANSFER OFFICE LOCATED IN NEW YORK CITY. WE HAVE SUCCEEDED IN INTERESTING MR. PEERY, THE PRESIDENT OF THE MONTGOMERY MOUNTAIN MINING COMPANY, TO SUCH AN EXTENT THAT HE HAS NOW NEGOTIATIONS UNDER WAY WHEREBY OUR CUSTOMERS AND OUR FRIENDS (AMONG THEM OTHER BROKERS AND THEIR CLIENTS) WHOM WE HAVE INTERESTED IN THE STOCK OF THE MONTGOMERY MOUNTAIN MINING COMPANY TO ESTABLISH A TRANSFER OFFICE IN THIS

EACH CERTIFICATE WILL BE PROPERLY REGISTERED WITH A PROMINENT TRUST COMPANY IN THIS CITY AND THIS TRANSFER OFFICE WILL ENABLE STOCK HOLDERS OF THE MONTGOMERY MINING CO. TO HAVE THEIR CERTIFICATES TRANSFERRED INTO ANY SIZE BLOCK THEY WISH IN-SIDE OF TWENTY-FOUR HOURS. THE ARRANGEMENTS HAVE BEEN PRACTICALLY COMPLETED AND THE TRUST COMPANY ONLY AWAITS THE BOOK OF CERTIFICATES WHICH SHOULD ARRIVE HERE DURING THE NEXT FEW DAYS.

IN AGAIN CALLING ATTENTION TO MONTGOMERY MOUNTAIN MINING COMPANY'S STOCK WE WISH TO SAY THAT WE STILL CONTINUE TO ADVISE THE PURCHASE OF IT. FROM THE REPORTS THAT WE HAVE RECEIVED FROM THE PROPERTY, WORK IS GOING ON NIGHT AND DAY AND IN THE EVENT OF A FURTHER IMPORTANT STRIKE THE BALANCE OF THE TREASURY STOCK WILL BE WITH-DRAWN FROM THE MARKET. WE WISH OUR CUSTOMERS AND FRIENDS TO UNDERSTAND THAT IN A WAY WE ARE STAKING OUR REPUTATION ON THE OUTCOME OF OUR PREDICTIONS IN REGARD TO THIS PROPERTY AND THE FOLLOWING ARE THE REASONS FOR IT.

FIRST, IT IS A GREAT PROVEN PROPERTY.

SECOND, WE KNOW THAT WHAT MONEY IS INVESTED IN THIS PROPERTY IS GOING INTO THE TREASURY FOR DEVELOPMENT PURPOSES. THIS IS NO STOCK JOBBING SCHEME NOP IS IT AN AT-TEMPT TO SELL WORTHLESS STOCK AND DIVERT THE MONEY INTO CHANNELS OTHER THAN THE TREASURY OF THE COMPANY.

THE THIRD REASON IS THAT THE ORES OF THE SHOSHONE, WHICH HAVE ALREADY BEEN SHIPPED TO THE SMELTERS AT SALT LAKE CITY, UTAH, HAVE SHOWN A NET VALUE OF \$500 PER TON, CARRY SILVER VALUES. THE RECENTLY DISCOVERED ORES OF THE MONTGOMERY MOUNTAIN MINING CO. CARRY SILVER VALUES. ANY MINING EXPERT OR MINING MAN IN THE WORLD WILL TELL YOU THAT WHERE SILVER VALUES ARE ASSOCIATED WITH GOLD, THE VEINS INCREASE IN STRENGTH AND VALUE WITH DEPTH, AND ARE PERMANENT. IN OTHER WORDS, WHEN THIS PROP-ERTY GETS THE PROPER AMOUNT OF DEPTH THROUGH ITS PRESENT ACTIVE DEVELOPMENT WORK THEY SHOULD HAVE EXPOSED ONE OF THE LARGEST KNOWN ORE BODIES IN THE ENTIRE DIS-

FOURTH, WIRE YOUR OWN FRIENDS IN THE FIELD, ASK THEM THEIR OPINION OF THIS STOCK. WE HAVE SPENT THOUSANDS OF DOLLARS IN THE CLOSEST INVESTIGATION OF THIS PROPERTY, AND WE ARE SATISFIED THAT THEIR OPINION WILL COINCIDE WITH OURS, WHICH IS TO BUY THE STOCK IMMEDIATELY.

IN ADVISING THE PURCHASE OF THIS STOCK WE ARE SERVING NOBODY'S INTERESTS, EXCEPTING OUR CUSTOMERS, OUR FRIENDS AND OUR OWN. WE ARE NOT IDENTIFIED WITH THIS PROPERTY IN ANY WAY, BUT WE ARE CERTAIN THAT THOSE WHO BUY IT, EITHER AS A SPECU-LATION OR FOR INVESTMENT WILL BECOME OUR PERMANENT AND SATISFIED CUSTOMERS, BE-CAUSE OF THE HANDSOME RESULTS THAT WILL ACCRUE TO THE PEOPLE WHO PURCHASE THIS STOCK AT PREVAILING MARKET PRICES. WE ADVISE YOU TO WIRE IN YOUR ORDER TO YOUR OWN BROKER AND DO SO IMMEDIATELY, AS IN HIS ENERGETIC WAY MR. PEERY IS WORKING NIGHT AND DAY TO GET RESULTS, AND IF THESE RESULTS ARE UP TO HIS EXPECTATIONS AND OUR OWN, THIS STOCK CAN EASILY DOUBLE IN VALUE IN A VERY SHORT TIME, THE SAME AS THE ADJOINING PROP-ERTY, THE SHOSHONE, DID.

WE DO NOT ASK OUR CLIENTS OR FRIENDS TO GO INTO THIS BLINDLY, WE SAY FIRST OF ALL INVESTIGATE US, FIND OUT IF WE ARE RELIABLE BROKERS, THEN THROUGH YOUR OWN BROKERS OR THROUGH ANY OTHER SOURCE THAT YOU MAY HAVE AT YOUR COMMAND, INVESTIGATE THE PROPERTY. BUT BE SURE AND DO SO IMMEDIATELY, AS WE DO NOT BELIEVE THE OPPORTUNITY WILL BE OFFERED TO PURCHASE THIS STOCK AT PREVAILING PRICES. IF YOU ARE AT PRESENT DEALING WITH A BROKER, AND HE IS RELIABLE, WIRE HIM YOUR ORDER.

LAST OF ALL, UNDERSTAND THAT OUR BUSINESS IS OUR ALL. AND WE DO NOT PROPOSE TO RUIN IT BY ADVISING THE PURCHASE OF ANY WORTHLESS SECURITIES. WE, LIKE EVERYONE ELSE, MAKE MISTAKES, BUT OUR CLIENTS AND FRIENDS KNOW THAT WE ARE ENTERPRISING ENOUGH YOUR HELP. WHAT WE WANT IS YOUR BUSINESS AND IN RETURN FOR IT YOU CAN DEPEND THAT YOU WILL RECEIVE HONEST, LEGITIMATE, FAIR DEALINGS AND EXECUTIONS. ALL OUR CORRE-SPONDENTS IN THE DIFFERENT CAMPS AND CITIES OF THE UNITED STATES ARE AT YOUR DISPOSAL AND YOU CAN CALL ON US NIGHT AND DAY FOR ADVICE AS REGARDS YOUR INVESTMENTS. YOU WILL RECEIVE A PRIVATE CODE BOOK AND A DAILY LETTER WHICH INCLUDES THE LATEST QUOTA-TIONS, THE PROSPECTS, THE DEVELOPMENTS AND ALL NEWS OF STRIKES IN THE VARIOUS CAMPS. WE PLACE AT YOUR DISPOSAL THE RESULTS OF THE MANY THOUSANDS OF DOLLARS WE HAVE SPENT TO BUILD UP OUR BUSINESS. SMALL ORDERS RECEIVE THE SAME AMOUNT OF ATTENTION AS LARGE ORDERS. ANOTHER THING, DO NOT THINK YOU ARE SAVING MONEY BY WRITING AND DEPENDING ON THE MAILS, WIRE US AT OUR EXPENSE OR TELEPHONE YOUR ORDERS. AT TIMES IT MAKES A DIFFERENCE OF SEVERAL CENTS IN THE EXECUTION OF ORDERS.

In taking this space in to-day's SUN it is our desire to call the attention of present holders and intending investors in Tonopah and Goldfield stocks to our facilities for executing orders in all parts of the country, we being represented by leading houses and brokers in every important mining center and city where mining stocks are dealt in. It is needless to say to anyone intending the purchase of these stocks that a great deal of his success depends upon the integrity and conservatism of his brokers, and we have been, and are now, placing ourselves before the public, willing to be thoroughly investigated, and if you believe us worthy, we respectfully ask you for all or part of your business in these stocks.

WE BELIEVE IN OURSELVES, and if ability, honesty of purpose and enterprise on our part is appreciated, WE ARE DETERMINED TO MAKE THE PUBLIC BELIEVE IN US. We offer you everything in the way of facts, information, quotations and other facilities that legitimate brokers can offer you. We place at your disposal our correspondence and these facilities, and if when you have given us a thorough investigation, you find us trustworthy, we youch for our many brokers and connections in all parts of the country.

Daily Market Letter Mailed on Application.

The president of a powerful Trust Company says: "Nevada will soon lead the world in the production of nickel. The American Nickel Com pany can dictate the price of the metal. They can produce it as cheap as the great copper mines produce copper. Nickel is selling for 50 cents a pound. What would Amalgamated or Calumet and Hecla stock sell for if they could get 50 cents a pound for copper? What will American Nickel stock sell for on the New York Curb market when they begin turning out 10,000 tons of nickel a year?" There are only three great nickel companies in

Société Nickel, capitalized for 12,000,000 francs in bonds and 15,000,000 francs in stock. Par 250 francs. Selling now at 725 francs a share. International Nickel, capitalized for \$13,000,000 in bonds and \$18,000,000 in stock. Par \$100. Selling now around \$60 for preferred and common. American Nickel. No bonds, no mortgages, no debts. No litigation. Capitalized for only \$5,000,000 in stock. Par \$10. Selling at present below \$5

a share on the New York Curb market. This is a false low price for American Nickel stock due to a peculiar combination of ignorance. suspicion and scepticism about its value which exists in the minds of holders who have read the vile, lying screeds of scribbling hirelings bribed o decry American Nickel in the interest of foreign competitors whose very existence is in jeo-pardy from the new American industry.

Calumet and Hecia rose from \$2 up to \$900 a hare and has paid \$87,000,000 in dividends to shareolders. Old Dominion rose from \$1.50 to \$53 a share. American Nickel is controlled by the same half the entire capital stock of the Calumet and Hecla and nearly all the Old Dominion stock. Buy American Nickel stock and hold it for divifends and a great rise. American Nickel will sell
